# 1 Introduction

The purpose of Pennsylvania State Administration Training (PSTAT) website is to provide access to training module(s) and resources associated with administering the Pennsylvania state tests to students in K-12 education. On this site you will be able to register as a Test Administrator (TA), School Assessment Coordinator (SAC), or District Assessment Coordinator (DAC) and complete a training module designed specifically to help you correctly administer the Pennsylvania System of School Assessment (PSSA) tests or the Keystone Exams. There are links to Pennsylvania Department of Education (PDE) resources for further information and clarification of particular aspects of test administration. We hope this site is helpful and welcome your feedback as a registered user.

This site provides a training module for general test administration of the PSSA test and Keystone Exams. Registered users will learn Before, During, and After test administration guidelines and answer general questions about test administration. Upon completion of the training module, test administrators will be able to print a certification of completion certifying successful completion of the training module. The training module provides training for general administration. Registered users who administer either the PSSA test or Keystone Exam to special populations should consult the specific documentation and training available on the Pennsylvania Department of Education website for further guidelines on test administration.

## 2 Getting Started with PSTAT Website

### 2.1 Types of Users

---

- **New Learner (Test Administrator):** This user is a learner who has not registered on the site. He or she only has access to the non-member web pages. This includes Home Page, Sign In, Register, About, Help, Contact, Terms & Conditions, and Privacy Policy.
- **PSSA Learner (Test Administrator):** This user is a learner who is registered as a member of the site, but is not an administrator. In addition to access the same pages as a new learner, he or she can also access the “membership” area of the site, excluding reporting.
- **PSSA School Coordinator (SAC):** This user is a learner who is a registered member of the site and has been approved as a School Coordinator by the District Assessment Coordinator or the PDE Administrator to have access to reporting information for their building. In addition to reporting data, he or she also has access to all web pages; follow the same logic as the existing learner. Multiple members can be selected to be administrators for a building; however a school coordinator cannot be an administrator for more than one School. This administrator does not have access to the CMS/LMS; however the same account information can be set up to provide CMS/LMS access.
- **PSSA District Coordinator (DAC):** This user is a learner who is a registered member of the site. He or she is manually selected by the PDE Administrator to have access to reporting information for their District. In addition to reporting data, he or she also has access to all web pages; follow the same logic as the existing learner. Multiple members can be selected to be administrators for a district; however a District Assessment Coordinator cannot be an administrator for more than one District. This administrator does not have access to the CMS/LMS; however the same account information can be set up to provide CMS/LMS access.
- **PSSA Admin:** The PDE Administrator user is created by JPL. He or she can login to have access to all web pages and reporting data for all Districts and Schools. In addition to reporting data, he or she also has access to all web pages; follow the same logic as the existing learner. This user has the ability to assign members as District Assessment Coordinators and School Coordinators. Multiple members can be selected to be a PDE Administrators. This administrator has access to the CMS/LMS and can upload courses and make content updates to the web pages.
